

Pulsar

the visible difference

Pulsar is the worlds leading system in IPL (Intense Pulsed Light), clinically proven to offer you more effective, virtually pain free, quicker and long lasting results.

Imagine never having to wax, tweeze or shave again! IPL is the only medically proven treatment for the long lasting removal of unwanted hair.

Highly controlled flashes of light are selectively absorbed by the hair follicles below the skins surface. The light heats the hair, thus damaging or destroying the re-growth potential of the follicle, all without damaging the surrounding skin.

Hair Removal Prices Per Session
